Professional Summary

Digital Media Designer with a Computer Science background, specializing in marketing creatives, brand Identity and conversion-focused web design. Leveraging creative thinking, technical expertise, and AI-powered workflows to craft cohesive brand experiences, engaging digital assets, and conversion-focused websites that deliver measurable business impact.

Experience

DCC Marketing

Jul 2023 – Present

Digital Media Designer

Oct 2024 – Present

- **Designed and delivered** marketing campaigns, advertising creatives, and brand collateral for **9+ clients** across manufacturing, banking, healthcare, education, government, and economic development sectors.
- **Led the end-to-end** design and development of **7 client websites**, including information architecture, sitemap creation, wireframing, UI design, content structuring, and front-end implementation.
- Leveraged **AI tools** (Claude, ChatGPT, Gemini) and the Figma MCP integration to streamline website planning, wireframing, sitemap creation, and content workflows.
- Contributed to a digital marketing campaign that achieved a **35.4% increase** in impressions, **29% growth** in reach and engagement, and **43.6% more** clicks within one quarter- driving **20K+ website visitors** in 2025.
- Collaborated with **cross-functional teams** to create conversion-focused digital experiences and marketing assets that strengthened brand visibility and audience engagement.

Web Developer & Social Media Management Intern

Jul 2024 – Sept 2024

- Assisted in **planning** and **executing** digital marketing campaigns through market research, competitor analysis, content strategy, and performance tracking.
- Created and scheduled organic social media content across multiple platforms to support audience growth, brand awareness, and campaign visibility.
- **Analyzed campaign performance** metrics and provided optimization recommendations to improve engagement, reach, and content effectiveness.

Web Developer Intern

Jul 2023 – Jun 2024

- Designed, developed, and maintained responsive webpages using **HTML, CSS, JavaScript**, and modern front-end development practices.
- Built reusable website components and optimized page performance, usability, and cross-device compatibility.
- Diagnosed and resolved front-end bugs and technical issues, ensuring reliable website functionality and seamless user experiences.
